

Kartik Kumar

Address: Water Works, Sector 26, Chandigarh

Pin Code: 160019

Phone: +91 6239824290

Email: heykartik9@gmail.com

GitHub: [Kartik-Kumar9](#)

LinkedIn: [Kartik Kumar](#)

PROFESSIONAL SUMMARY

Computer Science student specializing in Data Science with hands-on experience across data analysis, machine learning, and Data Structures. Proficient in Python, C++ with hands-on experience building machine learning models, practical data-driven applications involving analysis, visualization, and basic machine learning workflows

TECHNICAL COMPETENCIES

OS: Windows, Linux

Languages: Python, C, C++, JavaScript, R

Databases: MySQL

Data Visualization: Tableau, Power BI

Other Interests: Machine Learning, Data Science, Web Development, Artificial Intelligence

INTERPERSONAL SKILLS

Communication | Team Collaboration | Problem Prioritization | Adaptability | Time Management

HOBBIES

Reading | Sketching | Gaming

LANGUAGES KNOWN

English | Hindi | Punjabi

PERSONAL DETAILS

Mother's Name: Ms. Pooja Kainth

Father's Name: Mr. Pawan Kumar

D.O.B: 02-08-2005

EDUCATION

Bachelors of Technology in Computer Science Engineering

(Specialization: Data Science) |

Chandigarh Group of Colleges, Landran

Session: 2023-2027 | Score: 7.91 CGPA

Intermediate (CBSE) | Government Model Senior Secondary

School, Sector 16, Chandigarh

Session: 2022-2023 | Percentage: 91.2%

Matriculation (CBSE) | KBDAV Senior Secondary Public School,

Sector 7B, Chandigarh

Session: 2020-2021 | Percentage: 95%

TRAINING & PROJECTS

- HANDWRITTEN DIGIT RECOGNIZER** | Languages: Python | Libraries: TensorFlow, Keras, NumPy, Pillow
 - Built a Convolutional Neural Network to recognize handwritten digits using the MNIST and EMNIST datasets.
 - Applied image preprocessing techniques such as grayscale conversion, normalization, and orientation correction, and integrated the model with a GUI for end-to-end digit prediction.
- EMAIL SPAM CLASSIFICATION SYSTEM (Enron Dataset)** | Languages: Python | Libraries: Scikit-learn, Pandas, NumPy
 - Developed a spam detection system using the Enron dataset with text preprocessing and TF-IDF feature extraction.
 - Trained and evaluated models including Naive Bayes, Logistic Regression, and Linear SVM using metrics such as accuracy, precision, recall, and F1-score.
- CUSTOMER CHURN PREDICTION SYSTEM (Banking Domain)** | Languages: Python | Libraries: Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn
 - Built a machine learning model to predict customer churn using behavioral and financial features like age, account balance, and transaction activity
 - Developed a prediction pipeline to analyze new customer data and estimate churn risk to support customer retention strategies.

ACADEMIC ACHIEVEMENTS

- Completed Machine Learning using Python Summer Course under TechLive [2025]
- Smart India Hackathon Contender [2023] [2024]

CERTIFICATIONS

- Machine Learning I (COLUMBIA+ Columbia University) [2026]
- AWS Certificate in Cloud Computing [2024] and AWS Academy Cloud Operations [2025]
- Python 101 for Data Science (IBM Developer Skills Network) [2025]

EXTRA CURRICULAR & CO-CURRICULAR ACHIEVEMENTS

- Participation in National Voter's Day [2024] and National Science Day [2024] Poster Making Competitions
